TOTAL RESPONSES											___/___

- "Sure"**: when you see this, get CLIENTNAME into HRE for at least 30 seconds. Clap, take the item and say "All Done CLIENTNAME."
 - You may need to turn your back to him, stand up, move away, or make the situation so that he has to get your attention.
 - Wait 1-3 seconds for him to say "Excuse me". If he does, you can turn or give your attention to him and say "Yes, CLIENTNAME?"
 - If he does not say "excuse me" use Least to Most prompting: "Exc....", if that doesn't work ""Excuse..." then "Excuse M...." and so on.
- "No"**: when you see this, get CLIENTNAME into HRE for at least 30 seconds. Clap, take the item and say "All Done CLIENTNAME."
 - You may need to turn your back to him, stand up, move away, or make the situation so that he has to get your attention.
 - Wait 1-3 seconds for him to say "Excuse me". If he does, you can turn or give your attention to him and say "Yes, CLIENTNAME?"
 - If he does not say "excuse me" use Least to Most prompting: "Exc....", if that doesn't work ""Excuse..." then "Excuse M...." and so on.
 - After he says excuse me, May I have ___ (e.g., ipad/toy, etc.) say "**No, sorry**" or some version.
 - Put your hand up to signal a high-five + prompt him to say "Ok!"
 - Immediately give the item back

RECORDING YOUR DATA:

- If he does it correctly with no problem behavior and no prompt, CIRCLE the response. If you have to help him or he has a problem behavior, slash it.

- Record # successful (e.g., 3/10, 6/8, 4/4)
